ABOUT ME

B.Tech Computer Science student at JECRC University with a focus on software engineering and scalable systems. Experienced in React, TypeScript, Node.js, and C++ with a track record of deploying end-to-end full-stack platforms.

TECHNICAL SKILLS

- **Languages:** C++, C, Python, JavaScript, TypeScript
- **Web Development:** React, Node.js, TailwindCSS, HTML5, CSS3
- **Databases & Storage:** MongoDB, Cloudinary
- **Tools & Platforms:** VS Code, Git, Vercel, Nodemailer

PROJECTS

Verisitee | Full-Stack **Live site - verisitee.vercel.app**

- Developed a verified student-housing marketplace enabling students to list and rate PG accommodations, with authenticity enforced through institutional email validation.
- Architected secure authentication flows to restrict rating and listing capabilities exclusively to verified university email holders.
- Integrated MongoDB for structured data management of listings and reviews, Cloudinary for property imagery, and Nodemailer for verification communications.
- Ensured high availability and seamless deployment of the platform via Vercel.

Tech Stack: *Node.js, MongoDB, Cloudinary, Nodemailer, React, TypeScript, Vercel*

AgriNode | Front-end **Live site - agriiii-node.vercel.app**

- Engineered a real-time agricultural data platform designed to bridge the information gap for farmers by providing live commodity prices (Mandis) and localized weather forecasts.
- Integrated RESTful APIs (data.gov.in) to fetch and parse complex JSON datasets, ensuring users receive up-to-the-minute market rates for informed crop selling decisions.
- Optimized UI/UX for accessibility using React and TypeScript, ensuring the platform remains performant and responsive across low-end mobile devices common in rural areas.

Tech Stack: *React, TypeScript, TailwindCSS, RESTful APIs, Vercel*

EXPERIENCE & INVOLVEMENT

Devcrest Community | Active Member

Active member of Devcrest Community helping peers in learning new technologies and providing guidance on the latest trends in the market.

EDUCATION

JECRC University — Bachelor of Technology in Computer Science
SGPA: 9.06

2025 – 2029

ADDITIONAL SKILLS

- **Soft Skills:** Teamwork, Management, and Professional Communication
- **Languages:** Hindi (Native), English (Professional)
